

your moving day, your furniture is properly placed, your bed is made, your refrigerator is full, your kitchen is organized, your clothing is neatly hanging in your closet, your remote is setting next to your chair and boxes and packing materials have been removed.

4 Home consolidation: donate, shipping, sell

For furniture and small items that will not be moving to your new home, we will work with other providers in our network to find a solution that may bring some profit to you or arrange for a donation pick up that will benefit a local not-for-profit.

We will coordinate and supervise repairs and total clean out of your previous home.

The National Association of Senior Move Managers, (NASMM), is a non-profit organization association of companies whose goals are to help older adults and their families with all aspects of moving – physical and emotional. NASMM is committed to providing the compassion, respect and independence to seniors as they move from one home to another. nasmm.org

1 FREE In-Home Consultation

We come to you. We want you to share with us your thoughts and wishes as it pertains to your move. You determine how much or as little as you need. Our move is unlike any other move because it is Your Move. You share with us your ideas and how we can assist. Before our time together ends, you will feel relief knowing you are not alone during this transition

2 Planning: Floor planning, sorting, packing

Part of planning for an organized downsize and major move is the development of a

customized floor plan. We often overestimate how much our new space can hold. We will:

- Inventory your belongings
- Measure your furniture
- Obtain floor plans from your new residence
- Work with you on producing a layout of your new home with your safety in mind.

We love this part, as we work together to bring your personality into your new home.

Now that we know which pieces of furniture will be moving based on your floor plans, it's time to turn our attention to the smaller items.

This is the 'sticky stuff' that can be overwhelming to sort through. We are hands-on throughout

the process of sorting, eliminating unwanted items and providing suggestions for a suitable destination for items you wish to sell or donate. In this process we will:

- Sort and eliminate unwanted items – large and small with your help
- Arrange for disposal of unwanted items through auction, sale or donation
- Help you repurpose that favorite family piece
- Carefully pack your belongings during the sort and elimination process
- Obtain estimates from local moving companies
- Coordinate with family members

And arrange for shipment or storage

3 Moving: Unpacking & Organizing

Our goal is to recreate your new home so that you can quickly settle in and start enjoying your new community.

There are no small details which it comes to a major move. We will ensure that each detail of your move is properly managed and tended to.

Your Senior Move Manager Crew arrives prior to the moving truck. By the end of
